THE BANKERS.

Last Day of the State Convention.

THE ELECTION OF OFFICERS.

A Number of Interesting Papers Read—Judge Widney on the Financial Situation—Banquet at Redondo.

By 10 o'clock yesterday morning quite a number of the members of the bankers' convention had gathered in the assembly-room at the Chamber of Commerce, and at 10:30 o'clock, when Chairman Spence took the chair and called the body to order there were but few absentees.

The chairman at once called for the report of the committee appointed to nominate officers for the coming year, but there was some delay, and while waiting for the committee to report forward, A. D. Childress offered the following resolution:

"Resolved, that it is the sense of this convention that the California Bankers' Association petition Congress for the passage of the Nicaragua Canal Bill."

Mr. Childress explained that it was important that action should be taken at once, so that it could be sent to Congress by the secretary, in order to have it considered at the next session.

Judge R. M. Widney proposed the following, in lieu of the resolution offered by Mr. Childress:

"Resolved, it is the judgment of this convention that the construction of the Nicaragua Canal is of great importance to the whole people of this Coast, as well as of the United States; we therefore request the Congress to enact such legislation for the construction thereof as will procure such construction."

The resolution, as presented by Judge Widney was adopted.

THE MORTGAGE TAX.

Mr. Beckwith of Sacramento moved that the mortgage tax question be taken up at the next regular meeting. He explained that it was too late to accomplish anything at this time, as the Legislature will adjourn in a few days. He wanted every one, however, to think the matter over.

Chairman Spence remarked that there was an insane idea among the public that the bankers' interests and those of the people are antagonistic, and he did not think that any recommendation by them would have any effect on the Legislature.

Mr. Lankershim thought that the law had shown itself to be a failure in practice, as it did not remedy the evils that it was supposed to. He therefore wanted the measure taken up and passed upon.

OFFICERS FOR THE ENSUING YEAR.

No action was taken by the committee there presented the following nominations for officers for the ensuing year:

President—Thomas Brown of the Bank of California, San Francisco.

First vice-president—L. W. Hellman, Nevada Bank of San Francisco.

Secretary—George H. Stewart, Los Angeles County, San Jose.

Treasurer—S. W. Klein, First National Bank of San Francisco.

Executive Council: A. D. Childress, City Bank, Los Angeles; N. D. Rideout, California State Bank, Sacramento; W. M. Eddy, San Joaquin Bank, Stockton; W. S. Hawkins, Bank of Hollister; A. L. Seigman, Anglo-California Bank, San Francisco; C. E. White, Union National Bank, Oakland; Lovell White, San Francisco Savings Union; N. D. Woolwine, First National Bank, San Diego; N. W. Phillips, First National Bank, Fresno.

The Executive Committee is to determine the length of time its members shall hold, be it one, two or three years.

On motion of Mr. Lankershim, the report of the committee was adopted, and the officers declared elected by acclamation.

JUDGE WIDNEY'S ADDRESS.

Judge R. M. Widney then took the floor, and introduced the following resolution:

"Resolved, that this convention respectfully request Congress at its next session to devise a uniform money system for the people of the United States, with the gold dollar as the standard unit of value, and the gold, silver and currency for a circulating medium, in a sufficient volume to fully meet and keep pace with the growing wants of the business of the country; founding the basis of currency upon the value of the whole nation; making gold, silver and currency a legal tender, and exchangeable at par on demand, and fixing by a constitutional amendment the legality of such a currency, and the right to prohibit the dangers of inflation, contraction, repudiation, or change in the standard of values."

Judge Widney addressed the convention at length in support of the resolution, reading from manuscript. The judge concluded his speech on the following detail, giving facts and figures in support of his position, and in line with the resolution presented. As a remedy for existing evils the judge advocated a national system, based on a common standard of value, prescribing which should constitute the circulating medium, fixing its volume, establishing one standard of value, and vesting in Congress authority to issue such money, making it a legal tender, and backing it with the credit and wealth of the Nation, making it exchangeable for gold at par at any time. An amendment about as follows, he said, would cover the ground:

"Section 1. A national currency circulating medium, to be a uniform medium, sufficient in volume to meet the present and growing wants of the Nation, wisely administered by act of Congress, for the benefit of the people, we would enter upon a period of prosperity, development and progress, and the world would be at peace."

Three dangers are at the very root of our financial laws, ruinous inflation, constitutional repudiation and a threatened change of the gold dollar as the standard of value.

The safety of the system is one of the main elements of the prosperity of this Nation and other nations, founded upon and guarded by constitutional power, protecting it from the dangers of inflation, repudiation, or change in the standard of values."

Judge Widney addressed the convention at length in support of the resolution, reading from manuscript. The judge concluded his speech on the following detail, giving facts and figures in support of his position, and in line with the resolution presented. As a remedy for existing evils the judge advocated a national system, based on a common standard of value, prescribing which should constitute the circulating medium, fixing its volume, establishing one standard of value, and vesting in Congress authority to issue such money, making it a legal tender, and backing it with the credit and wealth of the Nation, making it exchangeable for gold at par at any time. An amendment about as follows, he said, would cover the ground:

"Section 1. A national currency circulating medium, to be a uniform medium, sufficient in volume to meet the present and growing wants of the Nation, wisely administered by act of Congress, for the benefit of the people, we would enter upon a period of prosperity, development and progress, and the world would be at peace."

STATE CAPITAL.

Legislators at Work on Many Measures.

The Assembly Will Attend Hearst's Funeral in a Body.

Gov. Markham Hands Down a Batch of Vetoed Bills.

Assemblyman Bruner Testifies in His Own Behalf—He Repents and Forgets His Former Story.

By Telegraph to The Times.

SACRAMENTO, March 13.—[By the Associated Press.] Senate.—In the Senate the Committee on Claims reported back the claim of A. J. Bourne, who lost his right arm while in pursuit of three escapees from San Quentin prison last August. The committee cut the claim down from \$10,000 to \$5000. The amendment was lost, and the claim went to second reading.

At the afternoon session the Senate amended and ordered printed Assemblyman Lynch's bill relating to the residence of judges of the Superior Court. The bill provides that in counties where there are two or more judges, at least one must reside within two miles of the courthouse.

The Senate bill exempting school elections from the ballot-reform law governing general elections was passed.

The Senate, by a vote of 12 to 22, refused to reconsider the vote by which the Mutual Insurance Bill was yesterday refused passage.

The bill authorizing the State Board of Examiners to receive and receipt for money due from the Government on account of the direct tax levy was read a first time and made the special order for tomorrow.

The first effect of the reform-ballot was shown today in a special bill which the Senate permitted Mr. Preston to introduce. The bill permits the Secretary of State to legally dispose of several tons of ballot paper, which are stored in the basement of the corridors of the Capitol, and which are no longer of use for the general elections. The old-fashioned paper can be used for musical and legal elections.

Assembly.—In the Assembly the bill appropriating \$2000 for a monument to Mexican war veterans in Sacramento cemetery came up. Bledsoe opposed it.

On motion of Assemblyman Lowe the Assembly voted to attend the funeral of the late Senator Hearst in a body.

The bill providing for the erection of additional buildings for the care and training of feeble-minded children at Gien Ellen, Sonoma county, was passed by a vote of 55 to 6. The amount appropriated is \$125,000.

The bill to amend sections 1187 and 1189 of the Civil Code, and to repeal sections 1187 and 1189, relating to the recording and acknowledgment of transfers, came up on final passage. Robertson opposed it on the ground that it removed the safeguards which the law now puts about women in relation to these matters.

Messrs. Matlock and Moredecai also opposed the bill while Messrs. Love, Sturtevant, Shanahan and Clark supported it. The roll was then called and the bill was carried by a vote of 44 to 24.

Mr. Hayes's bill to add a new section to the Political Code relating to the lease of chartered docks and landings under control of the Harbor Commissioners by which no exclusive rights are allowed to be granted to any person or corporation for soliciting business, was passed by a vote of 58 to 5.

The bill providing for the appointment of additional deputies in the office of the Attorney General, came up and was made the special order for tomorrow morning.

Mr. Kenfro's bill amending the law in relation to probate proceedings was put on final passage and received 62 ayes and no nays.

The Assembly at the session tonight disposed of the uniform liquor license bill by striking out the enacting clause.

The Jordan Claims Bill was read a second time and made the special order for tomorrow.

The bill appropriating \$10,000 for the expenses of an expert to visit Australia and procure bugs destructive to the fruit pests of California was amended to make the appropriation \$5000.

BRUNER'S DEFENSE.

The Accused Assemblyman Repeats His Story with a Variation.

SACRAMENTO, March 13.—[By the Associated Press.] The Bruner Investigating Committee met again this evening.

E. S. Hadley, a bookkeeper in the office of the State Printer, testified to Bruner having turned over the \$250 to him with the request that he keep it to him.

Senator Sprague was called and testified that Belau had told him of the meeting he had with Bruner at the Grand Hotel. Belau also stated that two newspaper reporters had tried to get him to say that Bruner had six positions on the San Francisco police force for sale.

Bruner took the stand and told the story that he had related in the Assembly on Friday of last week. It varied in the one particular, that he stated that when Alexander of the Examiner interviewed him about the positions on the police force, he warned him against Lawrence, saying: "He has done me up and will do you up unless you are careful."

Belau asked Bruner why he did not have arrangements made to have witnesses present at the library scene. Bruner replied that he did not think that anything would take place on the Tuesday evening.

A Batch of Vetoos.

SACRAMENTO, March 13.—Gov. Markham has vetoed Maher's two labor bills, the law preventing contractors or sub-contractors from working men more than eight hours a day on State contracts, also the bill fixing \$2 as the lowest wages to be paid unskilled labor on State contracts. The bill was stringent, and the Governor took the same view as was expressed by several prominent legislators who opposed them, that they would injure rather than benefit laborers.

The Stormy East.

CLEVELAND (O.), March 13.—The worst snowstorm of the season has prevailed here all day. The storm is general throughout Northern Ohio.

St. Louis, March 13.—Special dispatches from a dozen different points in Texas, and from Indian Territory

and Arkansas, show the snowstorm of yesterday to be the heaviest for years. Trains were delayed, and it is feared fruit trees are damaged and the entire crop destroyed.

MEMPHIS (Tenn.), March 13.—A storm prevailed in this section last night, the like of which has not been seen in this region before for many years. Rain and sleet was followed by a heavy snowstorm, covering the ground with icy slush.

AN ASYLUM FIRE.

Six Lunatics Burned to Death—The Others Saved.

NASHVILLE (Tenn.), March 13.—[By the Associated Press.] Fire broke out at the Central Insane Asylum, seven miles from this city, on the Murfreesboro pike, at 11 o'clock tonight. It started in the rear of the male wing, which has been destroyed, and the flames continue to rage.

Two fire engines started from here, and it is thought they will arrive in time to save some of the buildings. There were twenty-eight patients in the wing, and six of them were burned to death. The other patients are now in the main hall under guard, and there is no further danger of loss of life.

NASHVILLE, March 13.—The main building of the asylum is now on fire and the inmates are escaping. Gov. Buchanan has ordered out the State troops to aid the authorities and is leaving for the scene on a special train.

SLAVERY NOT DEAD.

How Hungarian Laborers are Treated in the Old Dominion.

RICHMOND (Va.), March 13.—[By the Associated Press.] A special to the Dispatch from Pocahontas says: John Herse, a Bohemian correspondent who went to investigate the alleged ill-treatment of Hungarians on the Elkham extension in West Virginia, arrived here today. Herse says that the report substantially correct. The men were compelled to walk the entire distance of sixty miles, leading creeks and rivers, with only bread to eat.

After three months work, they are in debt to contractors \$8.27 each. Herse secured their release.

Ex-Minister Foster's Mission.

NEW YORK, March 13.—A Washington special referring to the recent departure of ex-Minister to Spain Foster for Europe, says that his mission is to aid the present Minister to Spain in furthering a reciprocity treaty with Cuba, and that he is generally accredited from the State Department.

That Old and Curious History.

LOS ANGELES, March 13.—[To the Editor of The Times.] Some newspapers in the north of the State dispute my claim to the possession of the only copy extant on the Coast of *Historie Chretienne de la California* par Madame la Comtesse de * * * * * 1851. One of them says there is a duplicate in the library of the historian Hubert Bancroft at San Francisco. In refutation of this assertion, I beg to inclose herewith a note just received from the secretary of the (Bancroft) History Company, disclaiming any knowledge of the work. Charles Nordhoff, among other literary celebrities, in reply to my inquiries, confesses that he has never heard of the book.

While John S. Hittell, the veteran journalist and chronicler, in a letter to me says: "I feel confident that you have the only copy in the State, and that the book has never been translated." Nor is *Historie Chretienne* a plagiarism from Venegas or Tres Cartas, as John T. Doyle of the San Francisco California Historical Society facetiously insinuates.

A diligent collation shows that it is entirely an original compilation of important facts, throwing a flood of new light on the earliest missions in California. Let me add for whom it may concern, that the copy intrusted to me is not for sale. I am bound to return it to its owner in Paris as soon as I shall have finished with the remaining half bottle back to the office.

60-day bills, 4½%; demand, 4½%.

NEW YORK, March 13.—The stock market during the forenoon today was quiet.

At noon buying orders placed on the market, principally in western stocks, moved prices up sharply for a time. The grains reached 1½ per cent. in some stocks. The Interstate Commerce Commission decision in the Cox case against the Lehigh Valley company was the signal for a concerted attack upon coal stocks and all of them dropped nearly 2 per cent. The market finally closed quiet and heavy, but still at fractional gains for the day in most cases.

Government bonds were firm.

SAN FRANCISCO MARKETS.

SAN FRANCISCO, March 13.—SPECIAL to The Times.—Trading is excellent now in asparagus and new rhubarb. Large consignments of vegetables were received this morning. The quality of the products received is first rate. For choice asparagus is 10c per pound; for choice radish, 10c per pound is paid. All young rhubarb is looking well, and goes easily for 10 per pound. Another load of tomatoes was received this morning, but the quality of the vegetables is not good. Tomatoes, 10c per pound, and 1000 sacks from Oregon. There were no large consignments in prices.

Excess to the same market there were some transactions in choices, at 10c advance over general prices for first-class.

The wheat market is stronger. The demand for extra is, however, light, owing to scarcity of tonnage. Shippers will pay \$1.50 for standard goods with the usual advance and 10c for choice lots. Barley is quiet and prices of feed description are weak and lower owing to a decline on the call-board. Oats are firm, supplies being heavy and the demand light.

FRIDAY'S MEDLEY.

Local News Concerning Many Subjects.

AFFAIRS AT HOTEL GREEN.

A Jolly Party of Guests Go to Wilson's Peak—The Bear Valley Dam Prize-Brevities and Personals.

The guests at the Hotel Green are never at a loss for amusement. Yesterday morning the following party, including several Pasadenaans and friends from Los Angeles, started for Wilson's Peak: George F. Lyman and wife, Miss Mabel Lyman, Miss Florence Lyman and Master George Lyman of Minneapolis; Hou J. H. Collman and T. M. Lenhard of Boston, Miss Edith Ames of Chicago, Walter N. Bowler of Cleveland, O. F. Corry of the San Francisco Call, and James G. Rossiter and Charles R. Bowler of Pasadena. It would be hard to find a jollier party. They spent last night at Strain's camp and will return today.

The plans are almost perfected for the annex. Before the warm weather sets in ground will be broken for the new structure, which will give the building an imposing appearance and furnish plenty of room to meet the requirements of the rapidly-increasing business. The house will be kept open the year round, and there promises to be a brisk patronage during the summer months, which many consider the most delightful season of the year.

The fence is nearly completed about the proposed park on the west side of Raymond avenue.

Yesterday's arrivals were: Frank S. Gray, Cal.; Leo Weil, Charles Heineman, San Francisco; F. A. Pomona; E. E. Swanton, A. F. Lawton, J. Sunderland, New Orleans; F. W. Hepburn, Detroit; W. H. Daphy, San Francisco; R. Feschenheimer and wife, New York City; William Stanton, city; Patrick Tulent, Butte, Mont.

THE WEATHER.

Pasadena in Spring Attire—A Beautiful Day Enjoyed by All.

Yesterday was superb. The air was of spring-time warmth, while cooling breezes blew in fresh from the sea. All nature seemed refreshed by the recent rains, and was decked out in royal attire, the poppy fields standing out like big sheets of gold among fields of living green. All along the highlands, were favorite spots for visitors, who returned bearing huge bunches of the brilliant flowers.

The town was filled with strangers who spent the day riding or driving to neighboring points of interest, canyons and valley being alike attractive. The hotels and restaurants did a big business, and some of the merchants were benefited by the influx of strangers. Pasadena was at her best, and those who visited her, yesterday for the first time, will come again.

More Dam than Oranges.

Much dissatisfaction was expressed in Pasadena yesterday over some of the decisions made by the judges in awarding the prizes at the citrus fair. Complaint was made chiefly against giving Redlands first prize for the most artistic display of citrus fruits, while they generally admitted that the Bear Valley dam arrangement is the most striking in the pavilion; the people out here think that while the design is all right, citrus fruits figure so little in its make-up that it could not justify being entitled to first prize. And it is not a question of some grapes, for while objecting to the Redlands' design, holding the procession, Pasadena does not claim that she should have been first, although most of us are convinced enough to think that the giant pyramid of splendid fruit ought to have been placed higher than fifth place.

A Church Social.

The Congregational social given at Mrs. H. G. Bennett's residence Thursday night by the young people of the church was well attended. The exercises were of an interesting character, comprising selections by the Thomas Orchestra, vocal selections by Mrs. Clapp and Charley Gahr, a reading by Miss Ball, vocal duet by Miss Kate Nash and Carl Nash, guitar solo by Mrs. Bennett and an instrumental solo by Mrs. J. D. Nash. A pleasant social time followed, and before the guests departed they were treated to refreshments by the popular hostess.

A Brief Sketch of the Life and Work of Robert William Bell, Retiring Grand Master of Canadas Odd Fellows—From Other Societies.

Says The Dominion Odd Fellow: Robert William Bell, M. D., Peterborough, who during the past year has filled the important position of grand master of the grand lodge of Ontario, is a native of Carlton Place, Lanark county, where he was born in 1851. In 1874 he entered McGill college, Montreal, graduating in medicine in 1873. He practiced several years in Carlton Place, and in 1876 removed to Peterborough. He is an enthusiastic member, holding the position of master of the chapter, holding the position of Peterborough chapter, holding the position of Peterborough chapter.

At the Mikado rehearsal Thursday night at Morgan Hall some of the stage business was practiced with success. Next week rehearsals will be conducted at the Opera House.

Responses are coming in from the gentlemen to the invitations issued by the ladies for the cotillion to be given at Morgan Hall on the night of March 31. It will doubtless be largely attended.

Frank Gray, of the former firm of Gray & Bissell, is in town. He is a native of the State of Washington, where there was deep snow when he left. His many friends here gave him a cordial welcome.

The entertainment at the Methodist Church Thursday night gave great satisfaction to the many present. A collection was taken up amounting to about \$25. The singing by Miss Foss and the male quartette is deserving of special commendation.

Books have been issued by the committee appointed for that purpose, containing the new constitution and by-laws of the Valley Hunt. The books are neatly printed and have been distributed among the members.

If it would have been possible to have sized up the judges who gave Redlands first prize for citrus fruits (?) display, the scheme would have been to get Mr. Scoville to build a dam in the hall, and then with a few strokes and with the help of some of our young painters, we would then have stood more or less of getting something. The fruit itself don't seem to count for much.

There is a physician in town who never drinks anything but milk and water, who eats no fruit except apples, and in other ways manifests very peculiar dietary proclivities. He met his match at the Raymond, the other day, in a patient who told him she had tested fruit that she had to leave a room where anyone happened to be eating oranges, so disagreeable was the odor.

As the advertisement states, Miss Helen Bierer of Chicago will lecture in Williams Hall, Monday afternoon at 2:30 o'clock, instead of yesterday, as was announced. The lecture will tell her lady listeners a great deal of interest about "good health and a clear complexion." The lecture is given for the benefit of the organ fund of All Saints' Episcopal church. The Year's Work in Massachusetts—Other Items.

The grand master of the grand lodge of Massachusetts sums up his year's work as follows: "During the year I have instituted 5 subordinate and 10 Rebekah degree lodges, dedicated 9 halls, conducted 3 exemplifications, made 71 official visits, granted 3 dispensations, given permission to 144 lodges to hold their annual meetings, wear regalia, parade, etc." The grand secretary's report shows the total number of members admitted and reinstated to be 1,984, a net gain for the term of 1,261. The number of brothers relieved was 3,265; widowed families relieved, 211; amount for relief, \$60,807.81; total receipts, \$230,019.93. The estimate of expenses for the grand lodge for the ensuing year is \$10,100.

Past Grand Master Putnam, of Beaverwyck, New York, has been a member of the order for fifty-two years, and during that time has sat as representative in the grand lodge over twenty-five years.

The oldest member of the sovereign grand lodge is James P. Sanders, past grand sire, who resides at Yonkers, N. Y. He has been a continuous attendant at its meetings for thirty consecutive years.

Philadelphia has 191 lodges of Odd Fellows—148 subordinate, 35 encampments and 7 Rebekah lodges. The order in that city, as well as throughout Pennsylvania, is in a prosperous and progressive condition.

Columbus, O., has over 3,000 Odd Fellows.

The name of Culon commandery, No. 63, of Shamokin, Pa., has been changed to J. D. Barnes commandery, in honor of the G. M. of R. of Pennsylvania.

Deshong Castle, No. 340, of Chester, Pa., will celebrate their first anniversary on Feb. 26.

Fifty-nine castles were instituted in Pennsylvania in 1890.

Foresters.

Capital of the order, \$23,750,000; number of benefit members, 650,000; honorary members, 17,600; juvenile members, 88,300; companion of the Forest, 1,000; total number of members, 790,400, showing an increase of members during 1889 of 15,285. Courts of the order are established in Great Britain and Ireland, Holland, West Indies, Gibraltar, Malta, India, Cape of Good Hope, Natal, Kimberley, Port Alfred, Cape Coast, Gold Coast, St. Helena, New South Wales, Queensland, South Australia, Victoria, New Zealand, Tasmania, Columbia, Peru, British Guiana, Bermuda, the Hawaiian Islands, Nicaragua, Colombia, the United States of America and in Canada. Court Fremont was recently installed at Los Angeles with 200 members.

The Custom of Announcing.

Some New Yorkwomen will not adopt the custom, now almost universal, of having guests announced. All first class caterers send out "callers" along with door openers and maids for the cloak rooms, but not all hostesses accept their services. "It's too much like Washington and official cruises," said one frequent entertainer the other day. "It's English, too, I know," she went on, "but I like to pay my guests the compliment of recalling them without having my memory stimulated by a servant."

"That's all very well," said her companion, also often a hostess, "but in my case, without their aid, I should pay many of my very good friends the poor compliment of inability to say their names at all. I really couldn't get through an 'at home' creditably if deprived of this assistance. I find great difficulty in making names fit faces, and in the constantly arriving throng I should get hopelessly confused if things were not all arranged for me."—Her Point of View in New York Times.

The highly satisfactory manner in which Dr. Bell has discharged the onerous duties of grand master proved to be of great service to him. He is about to make his way for his successor his brethren throughout the jurisdiction have nothing but kind words and hearty good wishes. May he long live to aid in the advancement of the best interests of Odd Fellowship, and to wear the merited honor so heartily conferred on him by the order in Ontario!

MIWAAKES Pythians in Debt—Other News

The city of Milwaukee took too big a bite on its hands when it ventured to entertain the Pythian conclave last summer or the executive committee having the conclave in charge was of small account, for an indebtedness was left of \$7,000.

After long delay a meeting of the executive board was held recently. After a long and somewhat bitter debate new committee composed of energetic men were appointed to go out and raise the amount of the debt, and prevent the suiting of the members for the reward of the city in entertaining the Pythian conclave.

THE CITRUS EXHIBIT.

Thirteen Thousand People Visit the Pavilion.

CROWDS FROM THE COUNTRY.

A Big Delegation from Redlands-The Movement for Reproducing the Exhibit in Chicago Taking Shape.

From a writer's standpoint, the present citrus fair at Hazard's Pavilion is an old story, for every feature in the hall has been written up more than once during the past week, and it is hard to find anything new to say; but the public seems to grow more deeply interested in the greatest show Southern California ever gave, day by day, as the attendance has increased in numbers every night since the opening, and, to a certain extent, the same faces are seen in the gallery and on the main floor night after night, which proves that one can see everything in one evening.

In the past the town people have not taken much interest in such displays, but the present show is made so attractive that no one can afford to ignore it, and the citizens are just as enthusiastic as the

the CHICAGO SCHEME.

The scheme to remove the entire exhibit to Chicago took shape yesterday, and the

A View from the Gallery

visitors who probably never before visited an orange-growing country.

"Yes, madam, and it is a grand one."

"Of course, it is grand; but I would like to know why they call it a citrus fair."

As soon as a young man recovered from the shock, he explained matters to her entire satisfaction.

THE STREET CAR.

The Ontario street car has probably caused more comment than any display in the room, and simply because the dummy horses that are supposed to draw the car are standing on a platform in the rear, with their heads facing the car.

Eastern people are not alone in trying to solve the mystery surrounding this car; for there are many in Los Angeles who have not visited the beautiful little city of Ontario, and of course could not have taken a ride on this odd streetcar line.

After the fair opens on the 15th, the Ontario display will be the only one that it would be necessary to put a good talker in charge of the car, and notwithstanding the fact that he is guaranteed to talk at the rate of 120 words a minute for forty-eight hours, he is about played out and though set aside yesterday at 10 a.m. for the Ontario car, he is not.

The planation, which he has trimmed and pruned until it is as short as possible, is to

the effect that the Ontario streetcar line runs up the foothills over a very steep grade, and will take a pretty good pair of horses to get it up the hill, especially if there is any kind of a load.

When the horses reach the hill end of the road they are tired out and as the street car goes down to town without the assistance of horses the animals are not needed on the return trip. A kind-hearted man, who saw them trotting along behind the car one day, conceived the idea that they might as well ride down, and a light platform was built for the car, and the horses were soon trained to mount these platforms and ride down hill just the same as any other passenger. At first they were a little frightened, but they soon got used to it and now they enjoy the ride so that they cannot get to the top of the hill soon enough.

SAN GABRIEL MISSION.

The grand orange model of the old San Gabriel Mission, which was founded 120 years ago, is probably the most attractive display in the hall. The orange house is a perfect image of the old adobe church, and all persons of a romantic turn of mind never tire gazing on this reproduction in miniature of the old building and the question is what are asked would be a good size book. This building was erected by the fathers long before Los Angeles was thought of. When the Mission was established this country was a desert almost, and the priests had to draw water from a well that was dug in the construction of the church, and with the willing assistance of hand, with the willing assistance of the Indians, the Hazard's Pavilion, to the city of Chicago, and reproducing it there, has been suggested.

Is not the subject worthy of consideration by our Los Angeles Chamber of Commerce, as a financial measure, as well as in the interest of California, especially Southern

California?

Our chamber has been doing hard, faithful and efficient service, which has resulted in great benefit to all Southern California, and which deserves still greater and greater results in the coming year.

MARCH 15, 1891.

SLOW WORK AT SACRAMENTO.

Yesterday the Legislature took its fourth ballot in joint convention. The vote resulted in 34 for Estee, 23 for De Young, 13 for Felton and 12 for Blanchard. The Democrats cast their complimentary votes, 23 in number, for William D. English. The joint convention then adjourned until tomorrow.

They are apparently no nearer a result than at the start. Meantime, rumors of contemplated bribery become more common and ominous. It seems to be generally admitted that any candidate could, by the use of money, terminate the situation and obtain the seat. But how to do it without detection—there's the rub.

Many legislators are anxious to be bribed, several candidates are said to be quite willing to bribe them, but they are afraid. What a position of affairs! Yet they are "all honorable men."

It is, at least, something gained that the sack has been kept in the background thus long, thanks to the few just men in Sodom. Let us hope that they will prevail to the end and give us, by way of a change, a United States Senator from California elected on merit.

A BILL THAT NEEDS WATCHING.

The Examiner calls attention to another dubious piece of legislation in which Assemblyman Bruner is interesting himself. This is Bill No. 210, introduced by Mr. Bruner in the Assembly. It is entitled: "An act to regulate the preparation, sale, use, fire test and inspection of petroleum oils, kerosene, gasoline, or any product of petroleum by whatever name known, which may be manufactured, offered for sale or sold for consumption for illuminating purposes within the State."

On the surface, the bill looks innocent enough. It provides in the first section that the Governor shall appoint an inspector of petroleum products for each county, whose duty it shall be to examine all oils offered for sale and reject all that are below 150 fire test. The use of any oil for illuminating or heating purposes under 150 fire test is made a misdemeanor, punishable by a fine not exceeding \$100. The inspectors are remunerated by fees of 25 cents per barrel, and when one is repacked from bulk a fee of 10 cents per package is allowed. To enforce this act numerous fines and penalties are provided.

Now, here is where the "little joker" comes in: The California oil stands a fire test of 120. The standard set by most States of the Union is 110. If the standard is raised from 110 to 150 it is claimed that the California companies will have to go out of business, and what promises to be a formidable rival of the Standard Oil Company will be removed.

T. J. Cochrane of the Union Oil Company said to an Examiner reporter in reference to this measure:

It would rain every company in California and stand an industry which left alone will be one of the most important in California within ten years. The surface indications of the oil states are the general rule. In its interior records. In its interior may be shown two semicircular panoramas. The first will depict the conquest of Mexico by Fernando Cortez, at the moment when the Spaniards arrived at the center of the city. The second will show modern Mexico as seen from the terrace of the castle of Chapultepec and will be very beautiful. In the foreground will be the park of Chapultepec, with its majestic coloring, and the time is not far distant when the valley will present its most pleasing appearance.

It has been found that the tract of land purchased for the quarantine station at San Diego is too small to accommodate the structures which will be needed, including the post house, officers' quarters, hospital, barracks, boathouse, and warehouse for fumigating machinery, and a recommendation will be made to pile a large area of tide and submerged land, in order to obtain the requisite area for the buildings.

SOCETY WOMEN WEAR TIGHTS.

Theatrical circles in old Philadelphia are still on edge this week, because of a bill introduced at the news that the bill had been introduced at Harrisburg prohibiting the wearing of tights on the stage in Pennsylvania.

"Nearly every society woman in Philadelphia wears tights, and they will certainly oppose the bill," said a modiste who thought her trade would be ruined by the passing of such a law. "Fine dresses are all made to fit over tights nowadays," she continued. "You know the reigning style of dress shows nearly every line of the form, and tight-fitting cover coats set the figures off perfectly."

"We will not fit fine dresses over any other sort of under wear. Theights worn by these women are made of light thread silk and are just as carefully made as the finest work by the opera singers."

A new era appears to have dawned on Fresno county, says the Republican. There has been no murder this year, and the coroner has had but two cases since New Year's. That's a pretty good showing, and we should make the most of it.

A SPECIAL dispatch from Oakland to THE TIMES this morning describes the interesting ceremony attending the transfer of the banner from Los An-

geles to Alameda county. We expect to win that banner back at the next election.

Skirmishing for Advantage Along the Line.

THE MYSTERIOUS MR. JOHNSTON

The Federal Brigade Out in Force—Democratic Programme—Possibility of a Combination Between Estee and Felton.

The Sacramento correspondent of the Stockton Mail writes as follows to his paper under date of March 11:

This Senatorial contest is a go-as-you-please race sure, enough. In the ballot taken in the Assembly today twelve names were placed in nomination. In the Senate, however, there were but half that number. Of course the balloting was a mere formality and did not in any way partake of the nature of a test.

The arrangements of the Democratic party are likely to cut a very important figure in this contest. Today, as fixed up in caucus, the Democrats voted for Ostrom, tomorrow they will vote for Gough and then on the next ballot for James V. Coleman. After that they will be foot-loose, but it looks to me as if they will make a combination, and by standing as a unit, might become the balance of power and dictate the election of a Senator. It is said that De Young's chief reliance for success is in securing the solid Democratic vote, if he can effect the right kind of arrangements for enough Republican votes to make the combination fit.

Estee and Felton are taking this quietly, nor is there as yet any indication of either of them any indication of the presence of the much-talked-of and long-expected-for sack. De Young stays in his rooms the greater part of the time, where the cork of the "Pomeroy Sec." is in constant agitation.

The Federal brigade is here in considerable force, ostensibly directing the Senatorial fight. They are not a unit, and there is no E Pluribus Unum about them. A Felton faction is led by battle-scarred hero of the last unpleasant, Col. John B. Jackson, United States Sub-Treasurer at San Francisco. Gen. John F. Sheehan, United States Registrar of the San Francisco Land Office, is playing a lone hand. He is a Burns and is trying to help Estee. I can see no particular objection to Federal officials having a political influence, but I do think it is in taste for them to come to the Capitol in force to endeavor to influence the election of a United States Senator. It looks as if the incumbent, who was indebted to their influence, might be under obligations to them, which he would be expected to pay in Washington. I do not, however, over-rate the influence of these gentlemen, because there is no room for over-rating. The same outfit came to Sacramento to the Republican State Convention, as an army with banners, to nominate Morrow for Congress. In short order Dan Burner routed them, horse foot and dragoon, and they beat it unmasterly round, with hedgehog up, and then with the reflection upon them that, though they might be very smooth in securing soft berths under the Government, they didn't know much about practical politics.

"Who is Johnston?" has been the constant conundrum here for some days past. The readers of the Mail may remember that in a former letter I spoke of having been invited to some rooms where there was a sideboard with bottles of an elixir known as "Political Persuader." This room turned out to have been Johnston's headquarters.

Fame at its best is evanescent, and Mr. Johnston's fame was as ephemeral as Sacramento's, though he did not suddenly popped up as a candidate for United States Senator. Everybody was asking, "Who is Johnston with a 't'?" and the echo was ever, "Damfino."

Your correspondent devolved on himself the task of trying to trace the political genealogy of Johnston, with the result here stated.

His name is William Johnston. He lives at Courtland, on the banks of the raging Sacramento, Sacramento county. He was elected to the State Senate during the Perkins campaign. He is a prominent Granger and has held high place in that order. He is suspected of representing—or trying to represent the Farmers' Alliance element in his candidacy. There were some wicked people who say he is simply a "stall," or as the hunter would say, "a decoy duck." I know nothing of this to my own knowledge, but give the matter as I hear it bruted in public places. Nor can I imagine for what object ex-Senator Johnston keeps open house or why he assumes the role of fifth wheel to a coach. Subsequent developments which are likely to occur may give me a more broad and intelligent view of ex-Senator Johnston's efforts to immolate himself on the altar of his country.

It is urged on Mr. Johnston's behalf that he stands for the agricultural element of the State, and that the Farmer's Alliance has been well represented in the Senate from California, and that also he has a clean legislative record.

SLAYERS SLAIN.

[Continued from first page.]

THE LAST VICTIM.
Marchesi died this evening at 7 o'clock. The coroner's jury presented a simple finding. They did not say who shot the men. Matranga, Sunzeti, Natalie, the boy Marchesi, Paterno, John Caruso, Pietro, and Incardona, are eight who escaped punishment. Caruso hid in the yard. Natalie concealed himself in the wash-house and was discovered and his life spared. Sunzeti and Pietro hid in a dog-house and Incardona in a vault, while the jail officials spirited Matranga and Paterno out of harm's way.

JUROR SELIGMAN ARRESTED.
Seligman, foreman of the jury, was arrested this afternoon as he was attempting to leave the city.

At the meeting of the Stock Exchange the action of Foreman Seligman of the Hennessy jury, a member of the exchange, was discussed. The following resolutions were quickly adopted:

WHEREAS, J. M. Seligman, a visiting member of this exchange, has by his action in the Hennessy case evidently contributed to defy justice, ignore the laws and scandalize the community, be it

Resolved, that he be hereby expelled from this exchange.

Seligman had also been expelled from the Young Men's Gymnastic Club.

This afternoon the coroner impaneled a jury who, after receiving the bodies, rendered a verdict in accordance with the facts.

THE LEADERS MEET.

The leaders in today's movement, representing the best citizens, held a secret meeting tonight and discussed the occurrence of today and action to be taken in the future. It was decided that there should be no more bloodshed, but that the men who have not yet been tried for the murder, as well as those who suborned the witnesses and jury, shall be vigorously prosecuted before the courts of the city.

Juror Seligman was released this evening, there being as yet no legal warrant for his arrest.

LAW HAD FAILED.

Causes of the Popular Uprising and Ghastly Tragedy.

NEW ORLEANS, March 14.—[By the Associated Press.] The following is given as a clear statement of the actual cause which led to the tragedy enacted this morning: On October 1, 1890, about 11 o'clock at night, D. C. Hennessy, Chief of Police of New Orleans, while going from his office to his home was waylaid and shot to pieces by a band of Italian assassins armed with such blunderbusses as could only have been made and used for the purpose of assassination. Indignation and excitement was such that mob law and lynching were about to be resorted to. The entire community felt that in an endeavor to reach the guilty parties innocent Italians might be sacrificed. To allay excitement and assist the constituted authorities, the Mayor of the city appointed a committee of fifty representative citizens to take charge of the investigations and to aid in the trial and conviction of the assassins. This committee arrested violence. The committee entered upon the work and at a mass meeting subsequently held in front of the City Hall, the actions of the committee were ratified and they were encouraged to continue their labors to secure prosecution and a trial in the courts.

After months of preparation and a trial which continued three weeks, and in which distinguished counsel assisted the able district attorney, the jury, charged with having been bribed and corrupted, in the face of the established guilt, rendered a verdict of "not guilty" as to three assassins, Scafidi, Monstro and Politizz, and acquitted the other two, Machete, Marchesi and Bagnotto. Three more were on trial and were acquitted because of insufficient evidence, these being Matranga, Incardona, and the boy Marchesi.

The acquittal of Machete, the chief conspirator, and of Marchesi and Bagnotto, and the trial as to Palitz, Scafidi and Monstro fell like a thunderbolt upon the community and impressed law-abiding citizens with a conviction that the laws had been violated; but the verdict invited assassination and the grafting of the Italian mafia upon American institutions.

The feeling grew strong that for self-preservation the people must assume the authority which they had delegated to the courts and which the courts were powerless to enforce. This feeling increased until it found vent in the mass-meeting this morning at 10 o'clock.

This uprising of the people to secure the punishment of the assassins who struck down their chief of police in the night time with premeditated purpose, was orderly, and the people departed quietly as soon as their work of vindication was done.

TOE OF THE PRESS.

New Orleans Papers Approve the Bloody Deed.

NEW ORLEANS, March 14.—[By the Associated Press.] The States will say tomorrow, editorially:

Yesteray a cancer, which for years has been gnawing at our social system—the hideous Mafia—was once for all, amid tortures of blood, fiercely rooted out by the people's strong arm and the people's instrument.

The evils which remain to afflict our community—the vicious jury system and suborned living among us—are not of the deadly character which demand heroic treatment. Let the constituted authorities move against the jury who have done justice and insulted common sense.

The Times-Democrat will say:

The paralysis of justice during the past two years was due to the settlement in New Orleans of lawless bands of men, hailing mostly from Southern Italy, who brought with them to this country pernicious ideas and habits of life. These men, in their conspiracy and assassination societies in their quondam homes, The short, sharp and decisive drama of yesterday had in it, moreover, a warning for another class which they will do well to heed.

We refer to the lawless who are expert in getting at policemen and jurors and in filling the jury box partially or wholly with men pledged to consult above all things the interests of the criminals.

ITALIANS INDIGNANT.

A Massmeeting Called—Satisfaction to be Demanded.

NEW YORK, March 14.—[By the Associated Press.] The *Eco d'Italia*, one of the representative Italian newspapers in this city, issued an extra edition on the New Orleans killing. The story was followed with the following editorial and appeal:

Without words, we want satisfaction to full and complete. If our minister at Washington has not at this hour made his word good, 1,000,000 of the Italians residing in the United States will know how to do

if the massacre we have witnessed in this free republic is allowed to go unpunished, we will denounce it as assassination. Our word is quickly pledged. We never repeat.

The *Vendetta* invites to a massmeeting whoever has a heart that beats in his bosom. The article continues:

In this moment of persecution, though malignant, wrath and hate, we ought to remember that we are brothers and as such we invite El Progreso and El Colombo to unite with us at a grand massmeeting. Colleagues be quick to join hands as we are already and always with you. In the space of hours of our separation let us be united in the name of God. Death to the assassin! Death to the murderer! Those who allowed such butchery!

Although the *Eco d'Italia* announces a meeting for Tuesday night this announcement was made this morning and the excitement grew so intense during the day that it was decided to hold the meeting as soon as possible, and it will be held tomorrow night.

Last night a number of prominent Italian Americans in Washington called his attention to the murder at New Orleans and demanding that he take proper steps in the matter and give to the recognition its importance deserves.

CHICAGO, March 14.—Signor Durante, editor of the *Ralia* of this city, regards the lynching of the Italians at New Orleans as a great shame for the American people. He thinks the Italian government will take prompt action and ask reparation from the United States.

The banquet of Italians in this city, in honor of the forty-seventh birthday of King Humbert, has been indefinitely postponed because of today's tragedy at New Orleans. Their secretary has sent a telegram to Premier Rudolfo at Rome demanding energetic intervention and protection from the government of the fatherland.

THAT BANNER

FORMALLY PRESENTED TO ALAMEDA REPUBLICANS.

The Occasion One of Much Festivity—Speeches Made by Party Leaders—A Letter from Gov. Markham.

By Telegraph to The Times.

OAKLAND, March 14.—[Special.] The banner presentation by Los Angeles to the Alameda Republicans was made tonight in the Oakland Theatre, which was filled with fine audience. The stage was occupied by local officials, members of the visiting delegation, members of the Legislature and members of the Republican Alliance. Among them were Mayor-elect Chapman, N. W. Spaulding, Ex-Gov. Perkins, editors Frank and Leach, of the *Oakland Enquirer*, Harrison G. Otis, of the *Los Angeles Times*, and H. Z. Osborne, of the *Los Angeles Express*; Senators McComas, Carpenter, Dargie, Simpson, Denison, Boyle and Fraser; Assemblymen McCall, Cram, Fowler, Ames and Bryant, all of Alameda; Capt. Marion, John Lynch, Hersey, Baughman, Carlill, Galbraith and Alexander; Judge Rowell and San Bernardino, Col. J. H. Woodard, Aaron Smith, R. K. Northen, J. M. Meredith, F. P. Kelly, Adjt. Gen. Allen, Hervey Lindley, M. R. Higgin, E. P. Johnson, Jr., J. R. Mathews, Judge Blanchard, Gen. W. H. Barnes, A. C. Wetmore and Timothy G. Phelps.

A letter was read from Gov. Markham expressing regrets at his inability to be present, in which he said:

The banner is rightly yours. Your splendid majority for the ticket last fall was a surprise to almost every one in the State and to many of your own constituents who care to call the banner Republican country of California. I warn you, however, to look well to your charge. Los Angeles is growing very rapidly, and I am in the belief that the banner will remain with you on your country.

That banner which permits licensing of gambling will be objected to but finally read a third time and made the order for Monday.

Assembly—In the Assembly the Dennis Jordan claim passed by a vote of 46 to 14.

Sheriff in a Scrape.

NEVADA, March 14.—A warrant was issued this afternoon for the arrest of Sheriff George W. Dunster, on a charge of being intoxicated to such an extent as to unfit him for the discharge of his official duties under the law. The alleged offense is a misdemeanor, and if proven deprives the accused of his office.

Had a Close Call.

CLIFTON (Ariz.), March 14.—The Detroit Copper Company's boarding house at Morenci was burned last night. Twenty people were asleep in the building when the fire broke out, and had to escape in their night clothes. Nothing was saved. Several persons were scorched and Mrs. J. R. Shankland had a miraculous escape through a window. She tossed her child to a man who caught it and then jumped from the window herself, receiving most severe injuries.

SAN FRANCISCO, March 14.—The Supreme Court today decided it had no jurisdiction in the case of A. H. Carpenter and D. M. Vance of Stockton, who were fined and imprisoned by Superior Judge Catin of Sacramento for contempt.

THE HOSTILE SIOUX.

Morgan Opposed to Their Joining Buffalo Bill's Show.

CHICAGO, March 14.—[By the Associated Press.] Commissioner of Indian Affairs Morgan arrived here from Washington today. He is strenuously opposed to the plan of Buffalo Bill, who has the consent of Secretary Noble to take the hostile Sioux now in confinement at Fort Sheridan, and other Indians, to Europe with his "Wild West" show.

This afternoon Morgan held a conference with Eastman, the Sioux, in regard to the matter.

"I never was in favor of taking the Indians from the reservation," said Morgan, "and I still retain that idea. Of course I must be guided by the decisions of my superiors. The situation in the Northwest is somewhat peculiar, but I don't anticipate any trouble. What little dissatisfaction exists is farther only by a few."

The President invited.

WASHINGTON, March 14.—Representative Morrow of California called on the President this morning and presented telegrams from the Boards of Trade of Santa Barbara and other California cities urging him to invite the President to visit those cities on his trip to the Pacific Coast. The President said he had made no definite plans for such a trip, but said he will consider these invitations in case he decides to go.

The Pool Tournament.

SYRACUSE (N. Y.), March 14.—The first series in the pool tournament was won by Clearwater from Ward—150 to 70. Powers defeated Struve in the second series—100 to 85. Powers wins the championship and first money. Decore and Clearwater are tied for second money, which is being played off tonight. Sherman gets fourth money, and Keogh, Kuntsch and Werrick divide fifth money.

Given a New Trial.

PORTLAND (Ore.), March 14.—A private dispatch from Olympia this morning, states that the Supreme Court of Washington has reversed the decision of the lower court in the case of John S. Rose and John Edwards, convicted of the murder of the Fredericksen family at Oysterville, and has ordered a new trial.

Elevator Burned.

MOSCOW (Ida.), March 14.—The Pacific Coast elevator, containing 800 bushels of wheat, was burned last night. Loss \$25,000, fully insured.

Death of an Inventor.

FINDLAY (Ore.), March 14.—Charles Kellogg, well known throughout the country as a civil engineer and inventor, died last night.

Without words, we want satisfaction to full and complete. If our minister at Washington has not at this hour made his word good, 1,000,000 of the Italians residing in the United States will know how to do

Another Ballot Taken for Senator.

Estee Gains One Vote and Felton and De Young Each Lose One.

A San Quentin Guard Gets a Big Claim Through the Legislature.

Other Coast News—A Sheriff in Trouble—Narrow Escape of Inmates of Burning Lodging-house.

By Telegraph to The Times.

SACRAMENTO, March 14.—[By the Associated Press.] The ballot for United States Senator today, being the fourth ballot taken by the Legislature, resulted: Estee 34, De Young 23, Felton 13, Blanchard 12, Johnston 4, Wetmore 1.

The Democrats cast their complimentary votes, 23 in number, for William D. English. A number of members of the Legislature were absent and not voting. The joint convention adjourned until Monday noon.

In the Senate the only change was the transfer of Simpson of Alameda from Felton to Estee. The change gave Estee a gain of one and Felton a loss of one.

In the Assembly, Johnson changed his vote from De Young to Blanchard. Wentworth was absent, but he would have voted for Felton. Clark was absent, but he would have voted for Estee.

SENATE AND ASSEMBLY.

A San Quentin Guard Gets a Big Claim Passed.

SACRAMENTO, March 14.—[By the Associated Press.] Senate—In the Senate the \$10,000 claim of A. J. Bourn, the San Quentin guard who lost an arm in attempting to capture escaped last August, passed.

Mr. Campbell's bill to turn \$160,000 that had been appropriated for the new jute mill at San Quentin, back into the treasury, was defeated.

That which permits licensing of gambling was objected to but finally read a third time and made the order for Monday.

A Boston lady arrived at the Raymond Friday evening wearing a heavy winter bonnet. Commenting on the fact to a friend she said, "I am leaving Boston; I'd no idea we should find such warm weather. I understand your styles are a year behind out here, so I shall have to wait till I get back. But your bonnet is so beauty, the most stylish thing I've seen this year. You sent East for it, of course?"

"No," was the reply, "I bought it in Los Angeles, from Miss Jordan, who has just returned from New York with all the latest styles. I am leaving Saturday evening and take place next Thursday, Friday and Saturday, and all the ladies at the Raymond are going over to get their spring bonnets."

"Well, then I think I'll join the first party that goes," responded the Bostonian.

HOW TO PRONOUNCE IT.

A Little Discussion Over the Late King Kalakaua's Name.

"Poor Kalakaua!" said the man who was toasting his shins at the radiator. "He was not half as bad a king as the man made him."

"That may be true," replied the man in the big brown ulster, "but I notice you pronounce his name Kal-lak-a-wah. I think the right pronunciation is Kal-lah-kah-way."

"Very nearly correct," observed the man, who was chewing a toothpick. "Kal-lah-kah-way, however, comes a little nearer to it, unless I am much mistaken."

"I have always called it Kal-kah-kah," remarked the hungry-looking man in the slouch hat.

"A sandwich Islander wouldn't know whom you meant by that," spoke up the man with the cork leg. "Kal-kah-kah is the way to pronounce it."

"Come off," said the man who had his feet on the table. "What's the matter with Kal-kah-kah?"

"Or Kal-kah-kah," suggested the man.

"None of you have hit it yet," piped the man with the only face, who was looking over his register. "In Kanaka all the vowels are rounded. The name is Kal-kah-kah-kah."

This broke up the symposium, says the Chicago Tribune.

LETTERS TO THE TIMES.

Pio Pico's Suit. LOS ANGELES, March 14.—To the editor of THE TIMES. In THE TIMES of yesterday it is stated that as a result of the granting of a rehearing in Pico vs. Cohn, the plaintiff may regain the land which was taken from him through perjury. There is no warrant for the statement that Pico was defrauded, except his own declaration. The court has found otherwise, when the action was tried upon its merits, and has determined that Pico's testimony was untrue. Now, when his opponent is dead, he seeks to reopen litigation long supposed to be terminated. Our Superior Court is not peculiar in its disregard of Mr. Pico's testimony. His history as a witness is not flattering. Those desiring may gratify their curiosity by reading what is said of him by the Supreme Court of the United States in the following cases: Siscars vs United States, 6 Wallace, Rep., 596; Luco vs. United States, 23 Howard, Rep., 541; United States vs. Nolte, 1, Black, Rep., 306.

Again, you have spoken of this case as though Mr. Pico would be the beneficiary of a decision against Cohn. Even if Pico's view was adopted by the courts, he would be in debt to the defendant in an amount probably greater than the present value of the land. But I desir to call particular attention to the fact that the day after this suit was instituted he conveyed away all his property to a company. The deed is recorded in the County Recorder's office of this county, in Book 588, page 163, of Deeds. And on the same day he made an agreement with his grantee, which can be found among the same records, Book 26, page 603, of Agreements, whereby it was stipulated that the land conveyed was held by the grantee to secure them for the expenses of litigation, and to pay money which might be found due to Cohn, and that upon the settlement of the litigation they and Pico should own the land, share and share alike; providing, however, that before Pico got any of his attorneys should be paid an amount specified, by the way, is written of record. The amount of these fees we do not know. The question is, who is really interested in this suit? While we have no right to pry into private contracts, it is nevertheless, desirable that we should inform ourselves thoroughly on this topic, lest perhaps, our sympathy might be misapplied.

A NEW SYSTEM.

Diseases and Their Treatment by Electricity.

While averse to drawing the attention of our readers to any advertisement in our columns which partakes of a medical character, we feel more than justified in overriding this objection with respect to the announcement of the new and the most magnetic system practised by Dr. Berlin.

Dr. Berlin's new system of treatment consists of an improved system of local electro-magnetic applications, which is so immeasurably superior to the prevalent method of stomach drugging to command its at once to all the

physicians of the city.
